ATTN: PURCHASING

This is to certify that the materials and processes used to manufacture the above described product meet the specifications set forth in Section II, VIII & IX of the National Board of Boiler & Pressure Vessel Inspectors (A.S.M.E.) Code, pertaining to safety devices for unfired pressure vessels.

Vendor certifications, test and inspection reports substantiating this statement are available for inspection in our facility for a period of one year from date of purchase.

In addition, the valves listed above were subjected to a hydrostatic leak test at 1.5 times the set pressure to demonstrate the integrity of the valve construction.
